

SAC

SOCIETY FOR THE
ANTHROPOLOGY OF
CONSCIOUSNESS

2018 SPRING MEETING

March 22nd- 25th, Sophia University, Palo Alto, California

The Society for the Anthropology of Consciousness is dedicated to the exploration of consciousness across cultures and times. The theme of the 2018 conference concerns the diverse ways in which healing practices are used and being transformed by technology and modern world philosophy; and how these modalities of sound and ritual have significance in healing practices around the world today. We invite you to join us to share your ideas and experiences.

This year we are also holding a special Visioning Circle to co-create our future. This is an opportunity to join our community of practice, be heard, and shape the future. We invite you to contribute to this dialogue. The day following the Visioning Circle, we will host a Participatory Action Planning session for those interested in being part of the new future. This is a unique opportunity to join the leadership of SAC, so bring your ideas and energy with you.

There are several ways to participate:

If you would like submit a presentation or workshop, please see the instructions on our Call for Papers, available on our website www.sacaaa.org. If you want to come without presenting, we have full meeting and one-day registrations available. Visit our website for details.

To Register, please visit www.aaanet.org. Select "Attend Events", then "Section or Spring Meetings" from the dropdown menu. SAC is the fourth meeting listed. You will need to create a login to register. Registration will also be available on site.
