

Call For Papers
SAC 34th Annual Conference
March 27-30th, 2014

FROM MARGINS TO CENTER:
BRINGING CONSCIOUSNESS
FORWARD

The world is in need of reinvention. As people search for a fundamental shift in thinking and innovation, consciousness has moved from the margins to become a central discourse of our time. The theme of the 2014 conference is a challenge to think upon the impact of consciousness research and how it might affect the world. It is a call to action to bring consciousness to the forefront of research agendas and tackle pressing sociocultural issues in the world.

We invite papers and panel proposals on topics such as:

- ◆ The interrelationship between consciousness and innovation, design, art, healing, and ecology
- ◆ Shifts of consciousness
- ◆ Consciousness in scholarship
- ◆ Transformation (personal and collective)
- ◆ Application of consciousness studies
- ◆ Social Change

SAC also invites submission of artistic works and experiential workshops exploring or cultivating consciousness. We aim to build bridges across scholastic and creative communities. This year we especially invite panels from other organizations that study consciousness.

To Register and Submit please visit: <http://www.sacaa.org/>. Proposals Due January 5th. Acceptance Notifications will be sent by Feb 1st.
